

# THE RUTHMAN COMPANIES REPORTER

JULY 2012

THE MONTHLY SOURCE FOR RUTHMAN COMPANIES EVENTS AND INFORMATION

## Gusher Offerings

### *Chop and Flow...*

Gusher is adding the v11019-se vortex series models to its 7800-AVD vertical discharge pump line in HP ranges from 2, 3, 5, and 7.5 horsepower.

The "Chopperator" chopper pump line includes models that are engineered for quick and easy interchangeability with the 7800 AVD Series pumps.

*The Gusher staff is excited and very busy with preparations for the upcoming 2012 Ruthman Companies 100th anniversary/distributors meeting just around the corner, August 15, 16 and 17th!*

## Nagle Quality Continues to Qualify

### *Certification continues...*

In 1982 Nagle Pumps received an order from Georgia Power Plant Vogtle; to supply several Vertical Cantilever Pumps into the Non-Containment section of this Nuclear Power Plant – the pumps needed to be seismic qualified to assure that they would perform during and after an earthquake. The Nagle standard Cantilever design qualified with flying colors and subsequently Nagle has received many duplicate pump orders. Recently Nagle quoted Vertical Cantilever pumps for a California Refinery who required the same seismic qualification and has just received the approval from an independent seismic engineering firm to proceed with the manufacturing of these units.

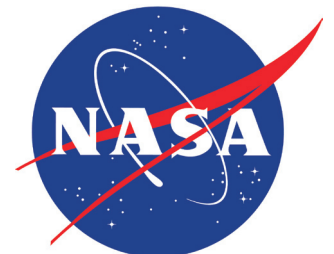

*Also look for Nagle Ads in "Modern Pumping Today" the new print and online publication.*

## BSM...Out of this World

### *Designing for new technologies..*

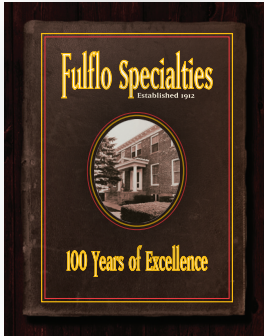

BSM was recently approached by NASA to develop pumps for the purpose of developing new technologies for coolant applications for a prototype vehicle. BSM has shipped 6 custom designed aluminum pumps with steel gears, carbon bearings and a Viton lip seal, rated at 4.5 GPM /150 PSI, pumping a mixture of water and glycol. BSM's contact at NASA reports the pumps are operating well.

## 100 and Rising... *A hot time had by all...*

Fulflo reports a highly successful and fun 100th Birthday celebration and distributors meeting held on June 6th and 7th at their plant in Blanchester Ohio, as well as other Cincinnati Ohio locations. Local dignitaries, friends and business partners joined in the festivities along with distributors, sales representatives and employees for an entertaining and productive event.

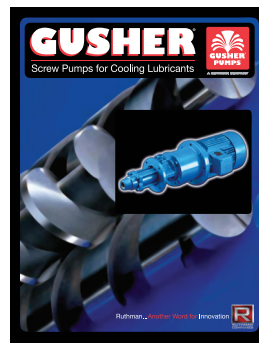

### Marketing Notes:

Last month Nagle, Gusher and Fulflo were featured in the premier print and digital issue of Modern Pumping Today Magazine, a new widely published trade periodical. See it at:

<http://www.modernpumpingtoday.com/current-issue>

Also new literature from Gusher includes a new Gusher DIN manual, a Gusher Screw Pump brochure, a 50Hz Stainless Steel Vertical Flanged manual. A Gusher Chopper Pump brochure and an updated 7800 AVD brochure will be available soon.
